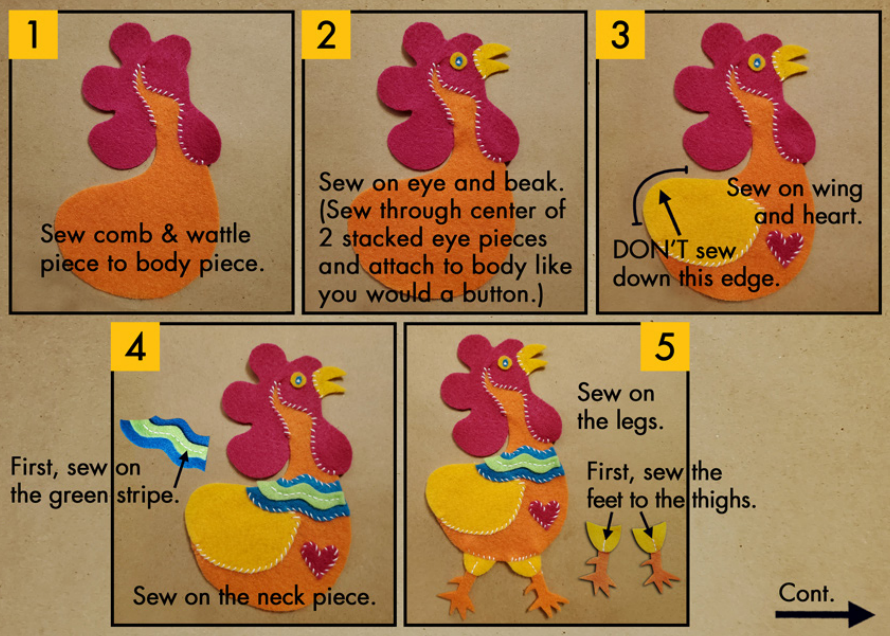
Step Three

Cut out rooster parts.

Step Four

Start to sew! (Or use fabric glue if you don't like sewing.)

It will work best to follow this sequence: (Use pins if you need to!)



Cont. →

Overlap the wing pieces in alternating colors like a fan. (Use pins to keep in place if it helps.) Sew together as illustrated.

6

7

Tuck the tail under the wing flap and pin, then sew down wing.

8

Ta-da!

The rooster is ready to be put on the tote bag!

Step Five

Position the embroidery hoop in the front center of the tote bag and screw down tight. The rooster should fit inside the circle. Pin down the rooster, being sure not to pin through the back of the bag!

Step Six

Sew around the edge of the rooster to attach it to the front of the tote bag. Take your time and be careful not to sew through the back!

HELPFUL HINT:
Fold in the handles and pin down to keep them out of the way.

Notice how the feet are sewn down the middle. This may be easier than sewing around the small toes.

Step Seven

You will need to remove the embroidery hoop to sew on the flourish piece.

The hoop imprint can be ironed away.

Then you're done!
