Description of SMART

SMART (Sisterhood Mobilized for AIDS/HIV Research and Treatment), is the first 501(c)(3) community-based treatment and prevention education, service, and advocacy organization created for, and run by HIV-positive women in New York City. Our mission is to provide treatment, prevention education and support to women and youth living with or affected by HIV/AIDS. Through our programs, participants empower themselves to take an active role in all aspects of their lives, especially medical and treatment decisions. By assuming responsibility for themselves, they are able to live longer, healthier and more productive lives. For more information about SMART Inc. /SMART University please visit our website www.smartuniversity.org
