Step 1

It will be helpful to lay out the yellow leg pieces in the pictured arrangement so that you will be sure to sew them to the correct legs.

Step 2

Sew the decorative pieces to the front of the crab as shown. (There are 2 identical orange crab pieces—a front and back.)

Use small stitches to sew around the decorative shapes. You may want to match the color of thread to the color of the shape.

Sew the rectangular dowel sleeve to the back orange crab piece. Use small stitches around the sides and top of the sleeve, leaving the bottom open for the dowel.

Align the crab front on top of the crab back, with the white crab shape sandwiched between. The white piece will be a kind of skeleton inside.

1. Sew all around the edge.

2. Add the dowel.

3. And you're done!
