# Start to Sew

*(Use white thread except where indicated.)*

1

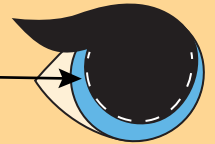

Sew the heart pieces to the heart backing.

*(Use small, close stitches around the edges of the shapes.)*

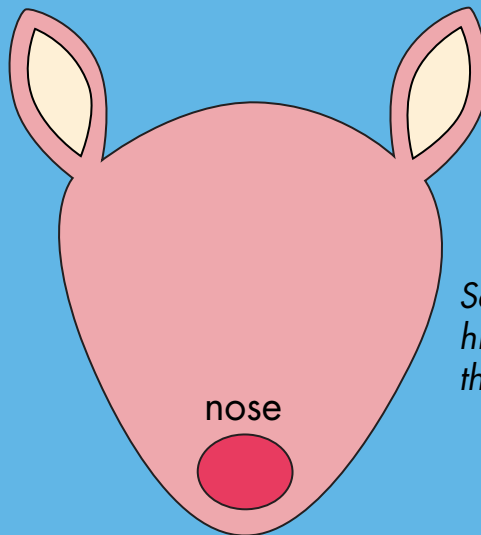

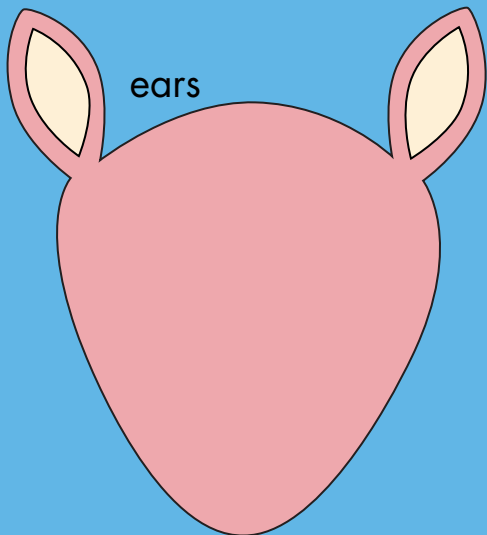

2 Sew the eyes.

*(Stack the eyes pieces as shown, then use black thread to sew through the layers along the dotted line. Leave all the other edges loose.)*

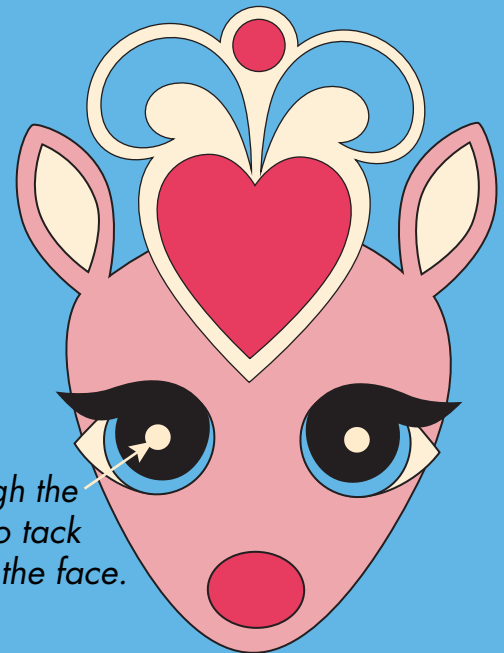

3 Sew the features to the face.

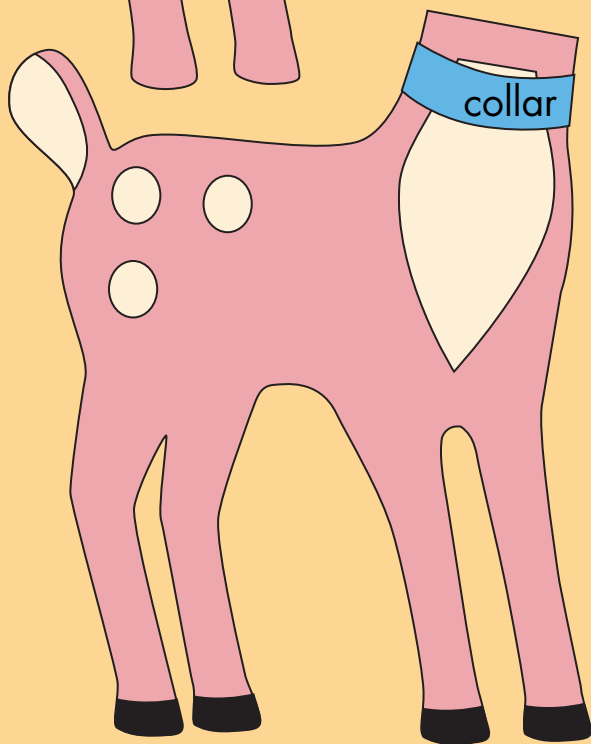

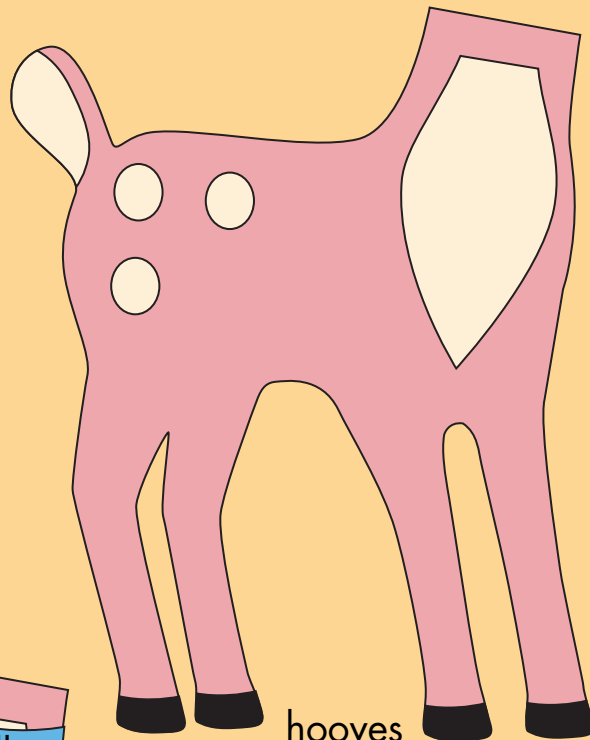

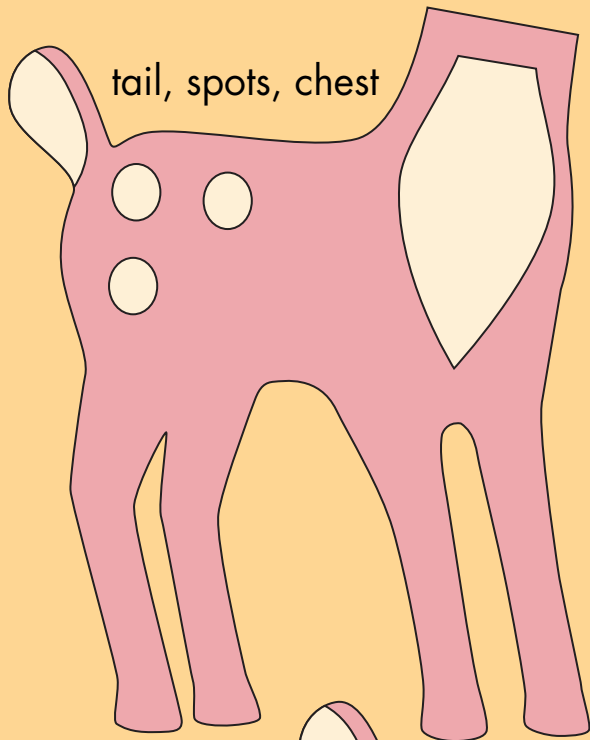

*(To attach the eyes, use white thread to sew through the highlight in the center, tacking the eye to the face.)*

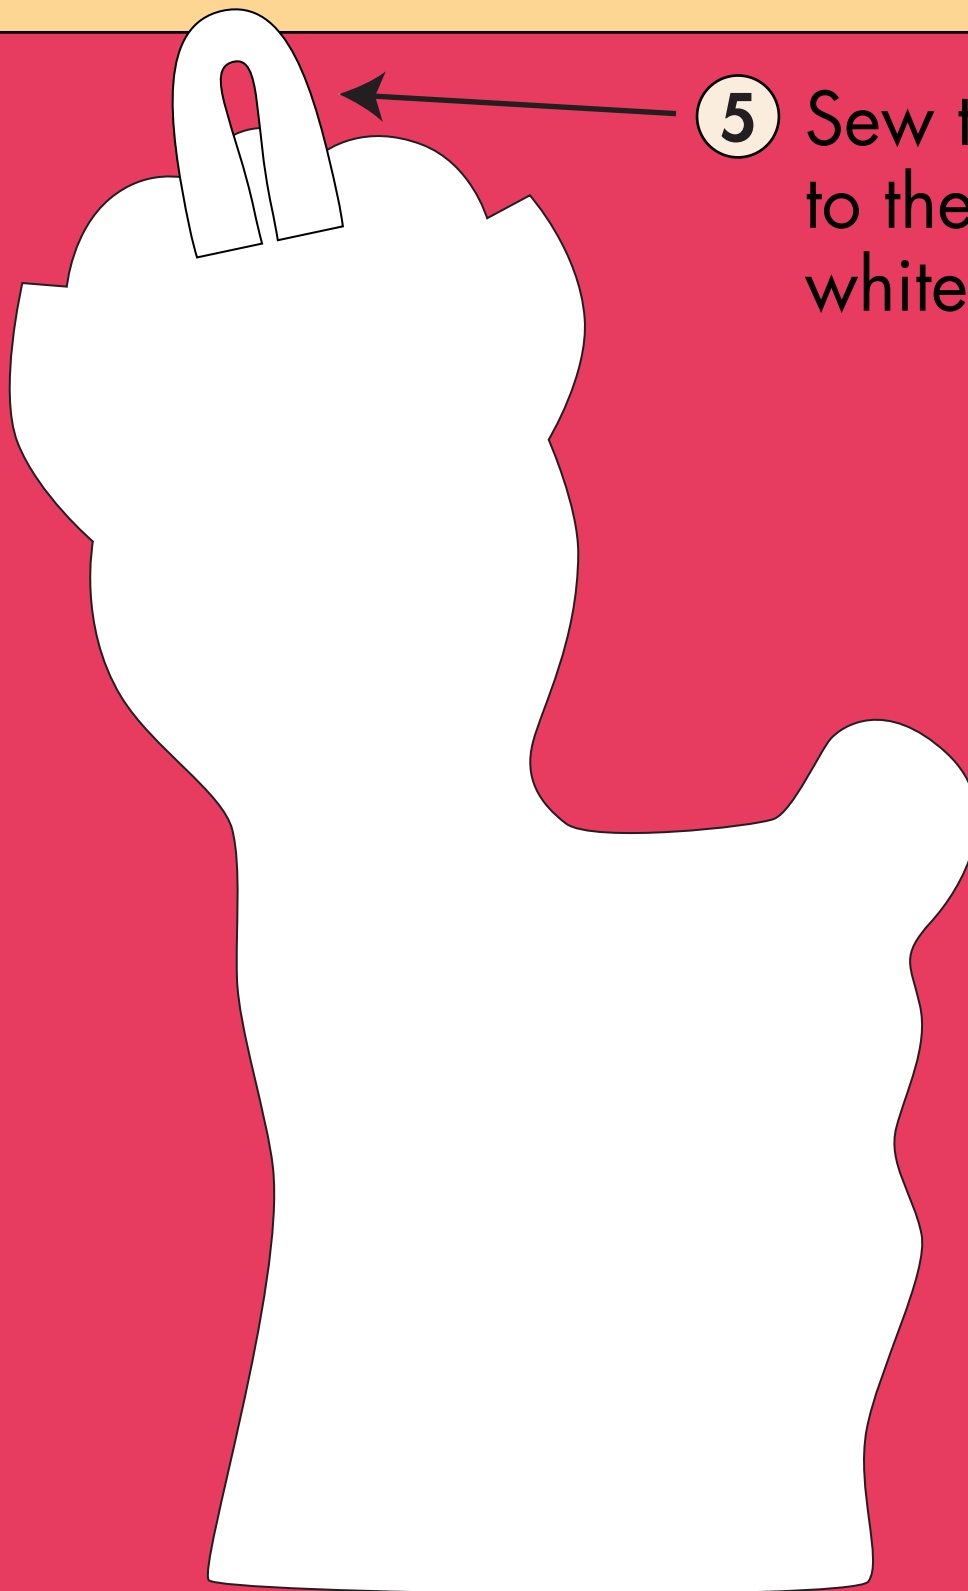

*Sew through the highlight to tack the eye to the face.*

4 Sew the features to the body.

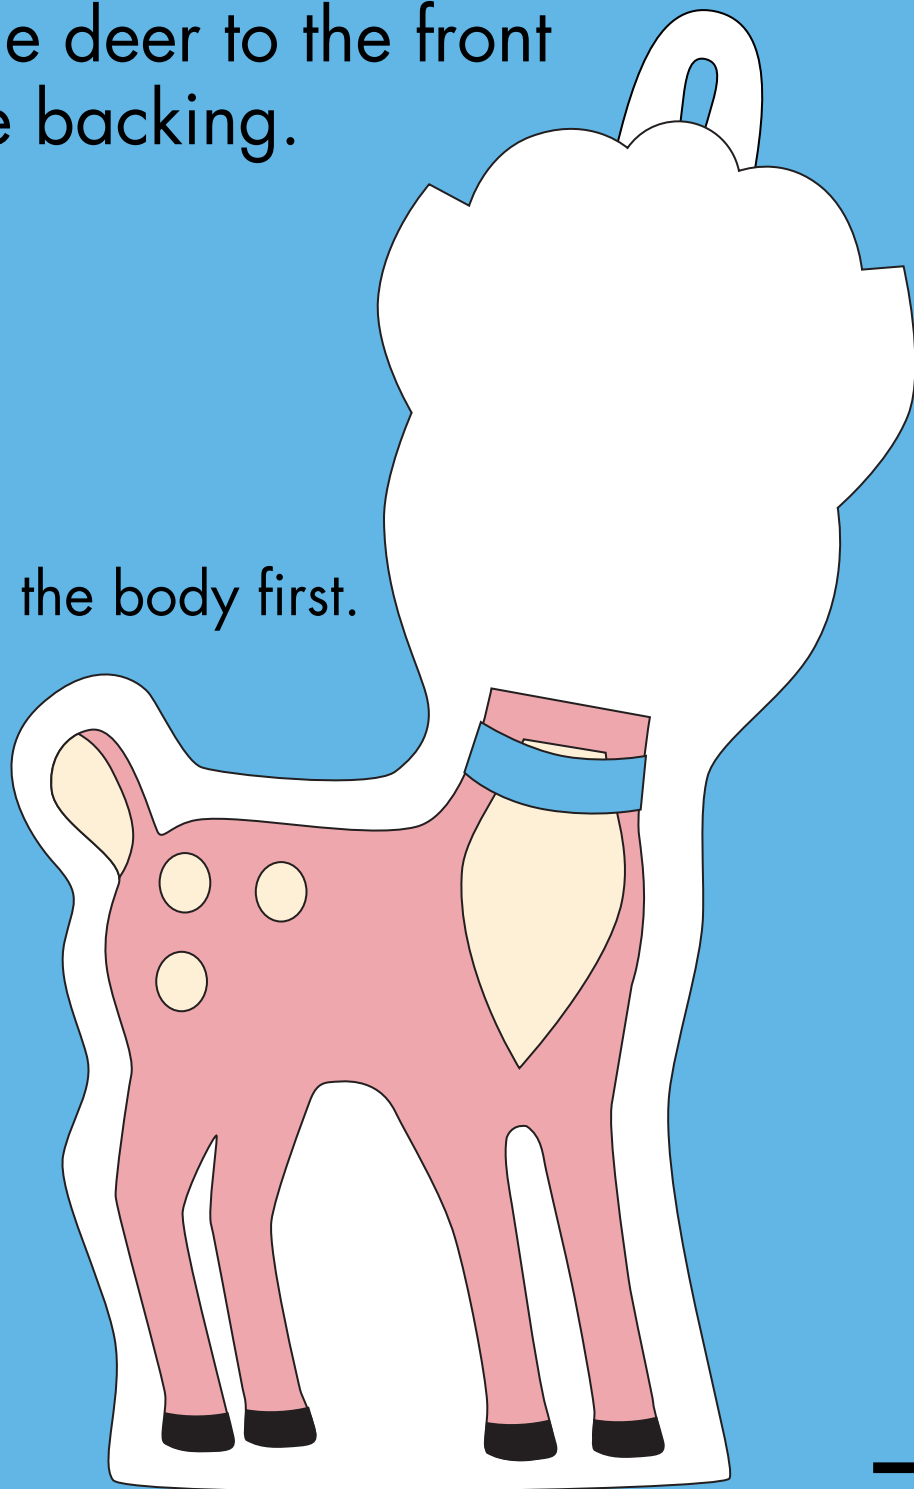

5

Sew the white strap to the back of the white backing.

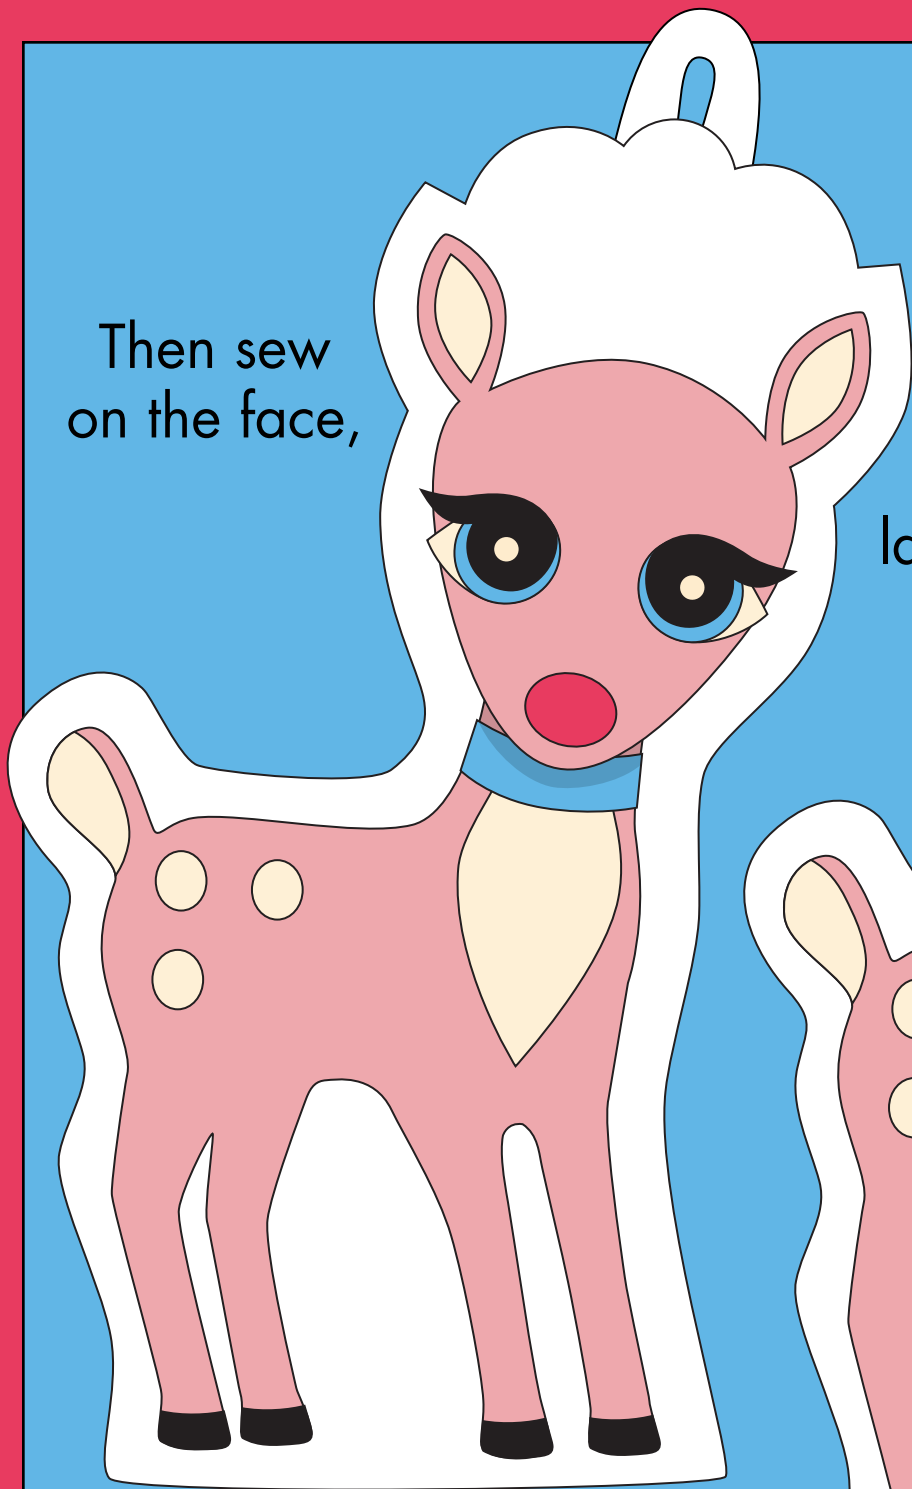

- 6 Sew the little deer to the front of the white backing.

Sew on the body first.

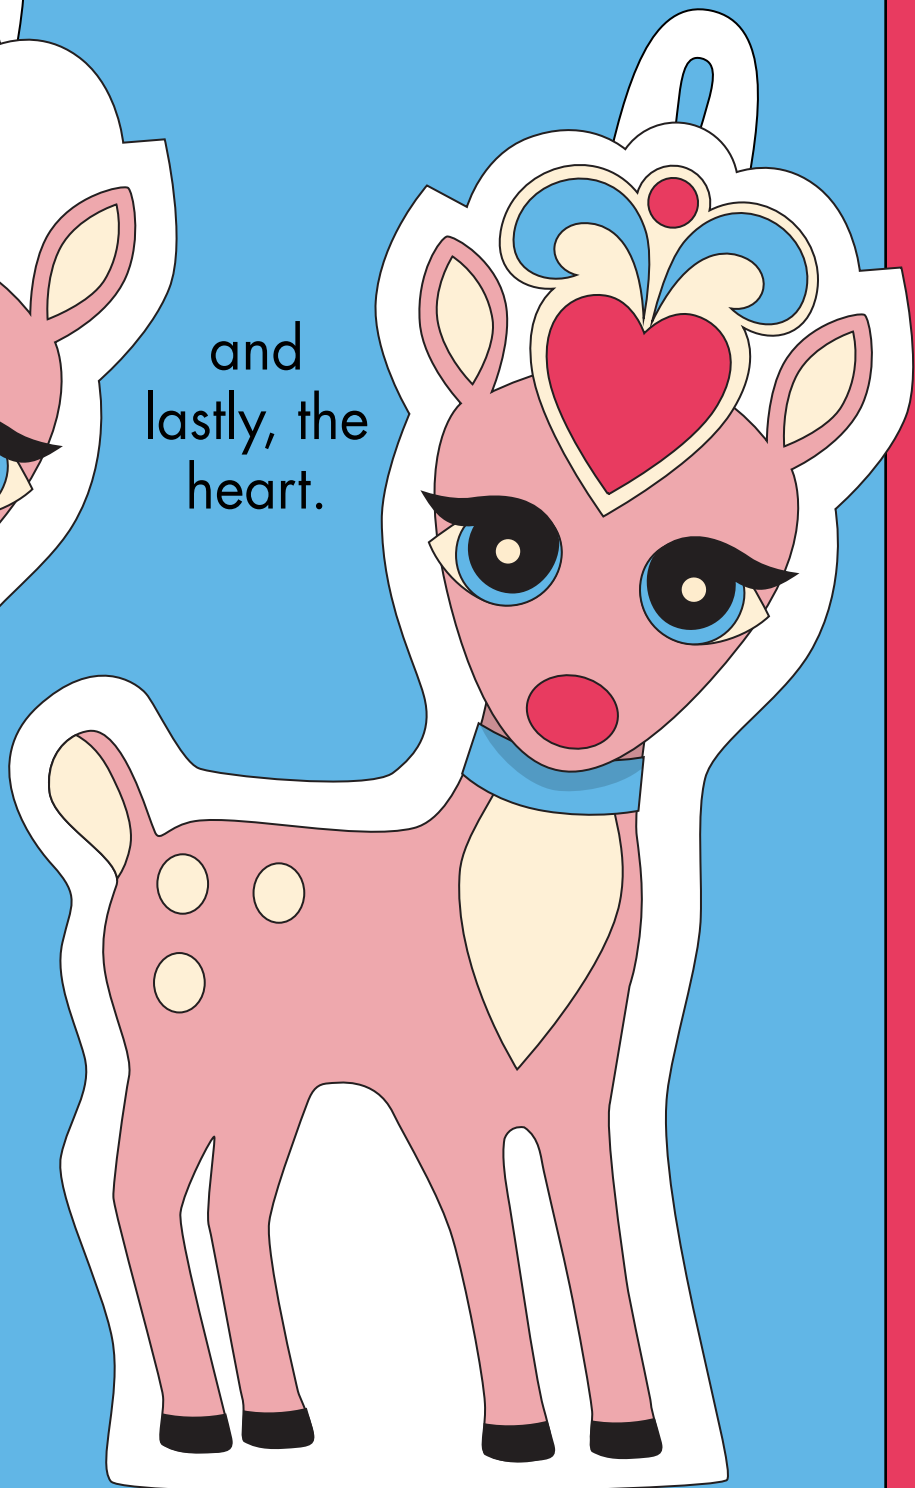

Then sew  
on the face,

and  
lastly, the  
heart.

Sew on  
the *Bell!*

*and you're done!*
