# Cut out the pieces

Use the pattern sheets to cut out the felt pieces. It will be helpful to pin the patterns to the felt with straight pins, then cut around the outlines.

# Prepare the banner

The thick white felt sheet will be the banner surface.

**1.** Fold over the top about 1 inch.

**2.** Cut off the corners along the dotted lines.

**3.** Sew down the edge of the fold to make a sleeve.

**4.** The dowel will slide through the sleeve.

**5.** Sew the fringe to the front of the banner.

You can remove the dowel for now.

The fringe should slightly overlap the bottom of the banner as shown. Secure in place with straight pins, then sew along the edge using red thread.

# Sew on the pieces!

**1.** Position the pieces as shown, then secure in place with straight pins.

**2.** Sew on the gold shape using gold thread. Use small, close stitches around the edge.

**3.** Sew on the numbers using black thread.

**4.** Position the big heart, rabbit body, and rabbit legs as shown, then secure in place with straight pins.

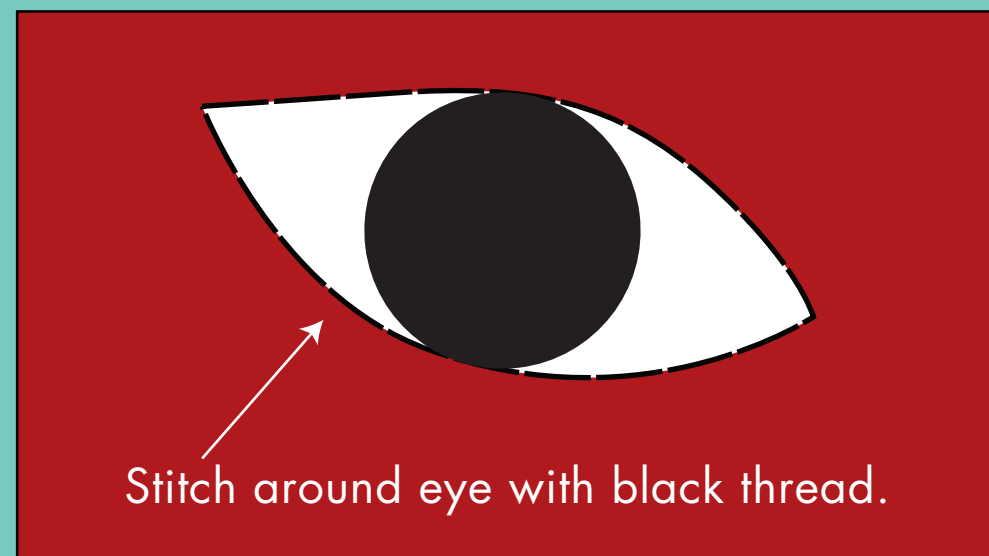

**5.** Sew down the pieces with red thread. You will be sewing through two layers—the gold shape and the banner surface. It will give the rabbit a quilted look.

**6.** Sew the smaller red heart on top of the O.

**7.** Sew on the nose, eye, and white center of the ear.

For the eye, sew on the white outer shape, then the black circle on top. If you choose, you can use the black thread to stitch a black line around the edge of the white shape to outline the eye.

**8.** Sew on the flowers.

For each flower, position the white petals as shown, then center the round piece on top. You will be sewing around the edge of the center piece to tack down the flower, leaving the white petals loose.

Stitch around center piece to tack down the flower.

Leave petals loose.
